### DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

#### *Claim Rejections - 35 USC § 112*

2. Claims 1-20 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for conductive resin comprising resin and conductive fillers/particles, does not reasonably provide enablement for conductive resin in which the resin is itself conductive. That is to say, the conductive resin according to the claimed invention gets its conductivity from the particles in the resin, not from the resin itself. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention commensurate in scope with these claims. Nowhere in the specification does it suggest the use of conductive resin without conductive particles but rather resin containing conductive particles. Instant claims recite “conductive resin” which broadly includes either a resin itself is conductive or resin with conductive particles. Thus, the instant claims are deemed broader than the enabling scope of the disclosure. Amending the independent claims to contain the phrase, “wherein the conductive resin comprises a resin and conductive particles”, or equivalent wording, would obviate this rejection.

3. Claims 5 and 19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 5 and 19 are confusing because it recites C-black as “resin”. C-black is not a resin. Claims should be amended to replace “is” with “comprises” to obviate this rejection.

***Allowable Subject Matter***

4. Claims 1, 12 and 20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
5. Claims 2-11 and 13-19 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
6. The following is a statement of reasons for the indication of allowable subject matter:  
None of the prior art references of record, singly or combined, teach or suggest a sheet wedge comprises a mica matrix of mica flakes, a conductive resin comprising conductive particles having the specific semiconductive property as claimed.
7. Referenes are cited as art of interest.
8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to H. T. Le whose telephone number is 571-272-1511. The examiner can normally be reached on 10:00 a.m. to 6:30 p.m., Mondays to Fridays.
